

Student Impact – Interdisciplinary Sustainability Consulting

A pilot project to combine technical expertise with the business perspective of Student Impact

WHAT – the pilot project in a nutshell

Student Impact aims to establish an interdisciplinary Student Impact **sustainability consulting project** that supports their clients in creating, evaluating, and implementing their sustainability strategies.

The purpose of the pilot project is to explore best practices and necessary conditions for such an interdisciplinary collaboration while providing **real value for the clients**.

pilot project – interdisciplinary teams – sustainability consulting

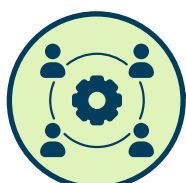

WHY – impact logics

The pilot project unfolds a **triple impact** following Student Impact's Theory of Change:

1. The **personal development of students** towards responsible agents of change by offering the possibility to work in interdisciplinary teams
2. The **transformation from within** by enabling mutual exchange and support between students at business schools and students at technical universities.
3. The **proliferation of sustainable business practices** by integrating them in the sustainability strategy of established businesses.

positive impact – transformation – sustainable business practices

HOW – project teams and timeline

The **mixed project team** will consist of:

- Six consultants (3 ETH & 3 HSG)
- Project Leader Duo (1 HSG & 1 ETH)
- Coaching team (HSG)

It will take place in the **fall semester 2024**:

- Onboarding Weekend: 20.-22-09.2024
- project duration: ≈ 16.09. - 20.12.2024
- 16-20 hrs./week

mixed project team – autumn 2024 – 16-20hrs./week

WHO – recruiting profiles of consultants

Are you **currently enrolled at HSG or ETH**? You have a sound understanding of **technical aspects**, and a structured approach to work? You possess an **entrepreneurial spirit**, exhibit a high **willingness to learn**, and you share a **deep interest in sustainability**?

Then the pilot project is made for you
